

# Cultivating Christian Citizenship

Learning the fundamentals of Christian citizenship in *Community and Government*. This age-appropriate textbook encourages students to become lifelong learners who value freedom, equality, and individual responsibility. Through this program, students will understand their world better and will be prepared to be effective Christian citizens.

## Course Focus

### Reading Skills

Questions related to the informational text help students learn to read with understanding. Students will also practice reading source material through enrichment activities and “People Making a Difference” features.

### Cultural Diversity

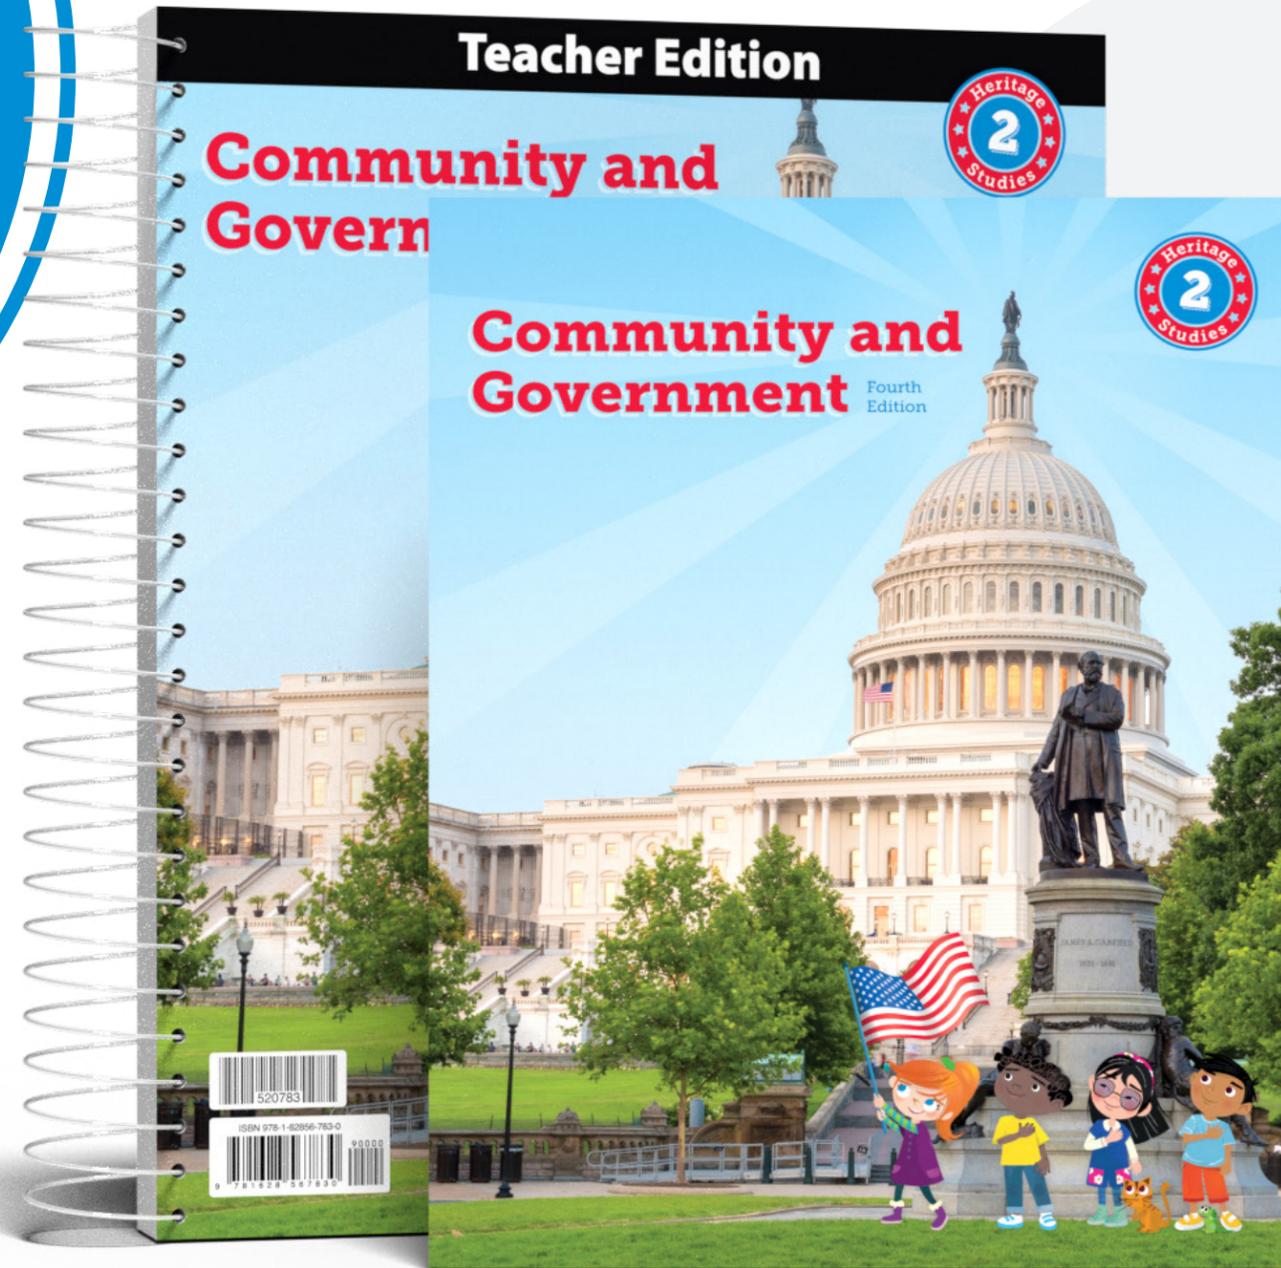

Multicultural cartoon characters appear throughout the text to introduce students to different cultural viewpoints and experiences.

### 21<sup>st</sup> Century Skills

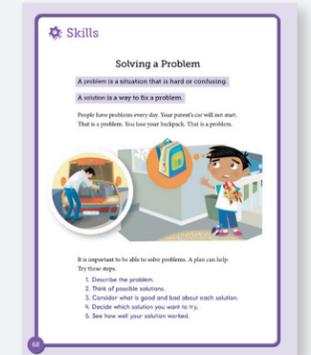

These social studies materials encourage students to develop the skills of collaboration, creativity, and communication through the student activities and suggested class activities and demonstrations in the teacher edition.

### Visual Analysis

Students practice visual analysis skills by answering questions that interpret the photos, artwork, and diagrams that correspond to the informational text.

## The Materials

### Student Edition

Age-appropriate material that uses stories, artwork, photographs, maps, graphs, and essential questions to engage students in learning.

### Teacher Edition

This teacher edition provides questions that will help guide the students in understanding the material and developing critical-thinking skills. Many of the ninety lessons are enhanced with teacher helps, background information, and enrichment activities. Resources include the Explaining the Gospel page, a semester activity, instructional aids, and indexes for the student and teacher editions.

### Student Activities

The student activities is a consumable companion to the student edition, providing a variety of exercises to reinforce the students' understanding and application of lesson objectives. Each unit has a Study Guide that provides a review of concepts and terms. An activities answer key is also available.

### Assessments

The assessments packet includes five summative assessments for evaluating the students' mastery of unit objectives. Tests include various styles of questioning and application of social studies skills. Each unit test is best administered after the completion of the study guide pages. An assessments answer key is also available.
